VICE CAMPAIGN IN ROCK ISLAND LEADS TO REVOLVER BATTLE

One Perhaps Fatally Injured and Two More Were Slightly Wounded When Factions Fight in the Down Town District—Several Alleged Participants in Fight Under Arrest

(By The Associated Press) ROCK ISLAND, Ill., Oct. 6.—One man was probably fatally injured and two more were wounded in a revolver fight in the downtown district today between two rival factions during the course of which more than 40 shots were exchanged.

Conner Looney, son of the publisher of the Rock Island News, is in a hospital with four bullets thru his abdomen and a fifth in his thigh, Albert Alguire of Brooklyn, N. Y., a bystander, was shot thru the abdomen, and Dan Drost, a former News employe, has a flesh wound in his arm as a result of the battle which was witnessed by a crowd of several hundred persons who had gathered to watch a baseball score board.

Wholesale arrests of underworld characters were made by the police following the shooting and tonight the city was in a state of excitement that caused the authorities to take steps to prevent further trouble.

Rock Island has been in a turmoil for weeks as the result of an effort on the part of some citizens to force officials to take action against alleged vice conditions.

The fight started when shots were fired at Looney and his friends from an approaching automobile. The younger Looney was hit at the first volley and Alguire was struck by a bullet when he went to help the wounded man. Others of the Looney party dashed into the hotel and as the crowd scattered, shots started pouring from the building. Drost, who is said by police to have been one of the occupants of the automobile was found at his saloon and taken into custody.

William Holsapple and A. W. Bilburg said to be enemies of the Looney faction are under arrest. Today's shooting was said by the authorities to be the outgrowth of a factional fight started August 1 when William Gabel was killed. According to persons making the fight against alleged vice conditions, the Elder Looney and his faction as well as his paper supported those responsible for the alleged conditions.

Albert Cox, chief of police, was suspended as a result of the vice campaign. Lawrence Pedigo, a friend of Looney and Morris Taxman were arrested tonight on a charge of carrying concealed weapons.

MAKES PLEA AS NEXT FRIEND FOR STEER

(By The Associated Press) DIXON, Ill., Oct. 6.—Appearing before Justice Grover V. Gehant today as "friends of the steer" and also in behalf of the steer, for whose ownership two Sublette township farmers are contesting, Judge William L. Leech of the Illinois court of claims opposed the motion made by State Senator Devine attorney for one of the contestants, that a blood test of the animal be made. Both farmers claim to own the mother of the steer and offered proof of parentage and identification marks.

Citing two recent decisions in favor of the innocent offspring Judge Leech, as friend of the court, said: "No blood or stain should be cast upon the steer, because of its possibilities that the steer has in society in later life."

He argued it might come in contact with the Armour's, Swift's, or Wilsons of Chicago or Kansas City.

Attorney Devine has been given until next week to reply to Judge Leech's argument.

SHERIFF TWICE ESCAPES BEING SHOT

SYCAMORE, I. L., Oct. 6.—Sheriff W. H. Decker twice escaped being shot while engaged in a hand to hand struggle with Joseph Melrath near the Ozark county line. Melrath was arrested after deputies followed the sheriff to the Melrath place and overpowered the man. The sheriff was summoned after Mrs. Melrath fled from home charging that her husband had threatened to cut the throats of the children and to shoot her. Melrath was armed with an automatic shotgun but the sheriff rushed into a clinch during which the gun was discharged twice tearing away part of the sheriff's coat.

McGraw was in distress. His face betrayed his anxiety as he watched his men go thru their practice. Their faces mirrored their manager's feeling. "Come time for the pitchers to get ready—for some one anyone to 'warm up.' Still McGraw pondered. With the final time for a decision approaching dangerously near, the "Napoleon of Baseball," nodded fleetly to Hugh McQuillan to "warm up." Word was sent to the press box that the assignment had been made. Wires buzzed. Temporarily relieved, the manager watched his selection twirl a few balls. But only for a moment.

## A THOUGHT

And I heard the voice of the Lord, saying, Whom shall I send, and who will go for us? Then said I, Here am I; send me.—Isaiah 6:8.

No man ever worked his passage anywhere in a dead calm. Let no man wax pale, therefore, because of opposition.—John Neale.

M. Bouillon seems to be spilling the soup in Near East Conference.

It looks like the Turkey John Bull has picked out will prove indigestible when he tries to eat it.

## THE CONSTITUTION

Just now an active campaign is being planned to inform the voters as to the new constitution to be voted on at a special election to be held December 12. While this is an excellent move it

is safe to say that when election day arrives there will be mighty few citizens who will know anything about the contests for most of it is beyond any one but an attorney.

## LIQUOR SELLING TABOO ON AMERICAN SHIPS

The protest of Adolphus Busch made a few months ago to selling liquor on American ships on the high seas has borne fruit. Yesterday the department of justice ruled that the prohibition enforcement act applied not only to American ships but also to foreign ships in American territorial waters. Now citizens who contemplate a trip to Europe will have to wait until they get on the other side before they can take a drink.

## THE OPTIMISM OF YOUTH

Youth is optimistic as was shown last night when the societies of Illinois college debated the Fordney-McCumber tariff law, the rail question and the Near East situation. All of them were settled in a manner satisfactory to the debaters and their audiences. Would that Congress and the senate could settle them as expeditiously.

## ENGLAND IS READY FOR EVENTUALITIES

One of the English staff officers at Constantinople yesterday said speaking of the Near East situation, "We showed a willingness to go to any honorable length to avoid rupture. If our pacific advice is not acceptable or are not reciprocated we are ready for eventualities."

That statement is characteristic of England. Since its beginning as a nation England has always been ready for eventualities. When the test came she usually went thru. It is this being ready for eventualities with the tenacity of the English race, to stick to the task when once started that has made England one of the dominating nations of the world. The war England may be looked upon the handle the present Turkish situation with the same resourcefulness that has been displayed in the past and when the crisis has passed England will no doubt be found the victor whether it be thru diplomacy or war.

## JUNGLE STUFF

(NEA)

Down in the tropics, takes place one of the most interesting peculiarities of the great mystery, life. This one deals with a partnership between plants and insects for mutual protection.

Come into the jungle. See the leaf-cutting ants, one of the most destructive insects of the tropics. They frequently strip a tree of its entire foliage in a night.

The ants lug away the leaves over roads which they have built. These roads are, six inches wide, sometimes a mile long, and are kept in repair and free of vegetation by squads of "white-wing" ants.

At the far end of the road the

## The Steeple-Jack

BY BERTON BRALEY

THE Steeple-Jack has lots of fun,  
He gets the air, he gets the sun,  
And when he's perched upon a steeple,  
He can look down on other people.  
But though upraised above the mob  
The Steeple-Jack is not a snob.

Of money, he is seldom shy,  
For, like his work, his pay is high;  
No Steeple-Jack can you accuse  
Of narrowness, for all his views  
Are broad. He sees much farther than  
Most any ordinary man.  
Thus, while so loftily he swings,  
He overlooks the little things.

He always is, it would appear,  
Right at the height of his career,  
Or one might say, with more discretion,  
Up at the top of his profession;  
And as his duties may require,  
He goes up high to earn his hire.  
Enough of puns like this, I know  
This form of wit is rather low.

(Copyright, 1922, NEA Service)

ants turn the leaves into a compost, or fertilizer, from which springs up a fungus growth, a kind of mushroom for which the ants are gluttons.

"These minute insects have become expert mushroom growers," says Dr. F. J. Seaver, who tells the story in a lecture at the New York Botanical Garden.

The leaf-cutting ants turn from the trees and attack certain jungle plants. Maybe these plants have intelligence, maybe not.

At any rate, they seek a means of protection. Presto! An "idea" comes to them. They change their shape, alter their structure until they become small holes.

Colonies of fighting ants observe that the plants have provided ideal housing and feeding quarters. They move in.

And they protect their homes. Let a leaf-cutting ant come marauding in—and it never gets out alive. The army ants kill it. They also protect the plants against all other insects.

As a military alliance, what do you think of this combination between plants and ants?

The arrangement between the jungle plants and the army ants, you'll observe is a 50-50 proposition. The plants give free rent and get protection. The ants get the free rent and give protection.

There is no sentiment about it. It's give-and-take, dollar for dollar. No one gets any more than he pays for. Nor does he pay for more than he gets. It's a natural law. "A fair exchange is no robbery." If we lived up to this natural law, getting a good living would be easier for all of us—and the average standard of living would be higher than it is in this day of trying to get something for nothing.

Go to the ant, thou sluggard. Consider her ways and be wise.

## EXPERT CHEMIST NOW INSPECTING ASPHALT

The asphalt which is now being laid on Jacksonville streets is being inspected by L. A. Crane, chemist, from the Chicago Paving Laboratories, who has now established headquarters at the plant of the Standard Paving Co., near the C. & A. depot.

It is the duty of Mr. Crane to see that the asphalt as mixed at the plant is of the proper grade and up to standard requirements. Tests are made at intervals and thus the chemist ascertains whether or not the asphalt is meeting requirements. He also watches the sand which goes into the mixture, to see that just the right grade is used.

## SEVENTEEN MORE CASES DECIDED

(By The Associated Press)

CHICAGO, Oct. 6.—Seventeen cases, the final lot before the labor board involving the contracting out system which the federated shop crafts claim was one of the primary causes of the rail strike were finally decided this afternoon by the railroad labor board. As in the first case the board held that the roads violated the transportation act. The roads included the Erie, regarded as one of the most ardent supporters of the contracting plan; the Ann Arbor, Cincinnati, Indianapolis and Western; the Big Four; Pere Marquette; Chicago, Rock Island & Pacific; Michigan Central; Indiana Harbor Belt and the New York Central. Some of these roads, including the Boston and Albany had discontinued the practice prior to today's ruling in accordance with a promise made to the labor board at the beginning of the shop crafts strike.

## PRAISES BEAUTY OF JACKSONVILLE

In this week's issue of the Saturday Evening Post Will Irwin, under the caption of "Beautiful Jacksonville," pays a high tribute to the beauty of this city, thru which he passed in an automobile early this summer.

Mr. Irwin is a frequent contributor to the Post and his articles are read with interest by thousands of readers. He calls this city "the most beautiful small Midwestern town." The article in which Mr. Irwin refers to this city in such glowing terms is "Pike's Peak, Lizzie or Bust," and is an intensely humorous and interesting account of his journey from New York to Colorado.

Mrs. Irwin, who made the trip with her husband, chose Painesville, Ohio, as the most beautiful midwestern town. Local residents after reading the article referred to will all agree that Mr. Irwin's description of this city's charms is not one bit exaggerated.

(Continued from Page One.)

ships might not bring liquor into American territorial waters they could sell up to the three mile limit on their inward voyage and dump overboard any remaining stocks.

Orders for enforcement of prohibition laws as construed by Mr. Daugherty were issued by President Harding today. In Mr. Lasker the executive said the transportation and the service of intoxicating liquors on all ships owned, operated or leased by the shipping board "should be prohibited at once and all transportation either as cargo or ship's stores must cease at once on ships at sea or in foreign ports immediately after docking in home ports."

Quoting the supreme court to the effect that the intent of the national prohibition policy was to

stop the whole business of trafficking in intoxicants the attorney general said the scope of the statutes enacted to carry out that policy undoubtedly must include all territory subject to the jurisdiction of the United States. Under such interpretation, he held, American ships wherever they might be located would come under the national laws.

The opinion was supported by numerous quotations from decisions of the supreme court and interpretations of organic law.

## "SAY IT WITH FLOWERS" ORIGINATOR IS DEAD

(By The Associated Press)

EVILS LAKE, N. D., Oct. 6.—N. P. Lindberg of Rugby, N. D., the man who originated the phrase "Say It With Flowers," was instantly killed at Penn., N. D., near here last night when his automobile jumped a grade pinning him beneath. His wife was seriously injured.

Lindberg was 57 years old and was born in Denmark.

It was when he attended a national florist convention in Chicago 10 years ago that "Say It With Flowers" was originated. When he introduced himself, one delegate asked: "What can you raise up in that barren Dakota prairie country?"

Lindberg answered: "Up there we say it with flowers."

Thereafter Lindberg became known at the convention as "Say-it-with-flowers - Lindberg from North Dakota."

About a year later, during another convention, Lindberg strolled into the convention the president recognizing him shouted: "Here comes old Say-it-with-flowers from North Dakota."

This threw the convention into an uproar and a motion was immediately adopted to use the phrase "Say It With Flowers" as the national florists' slogan. Since that time the phrase has become an international byword of florists and has been used by parographers and humorists in various forms.

## CHAPIN RESIDENTS PLANNING AUTO TRIP

Cowdin and Joy Families to Leave for Automobile Trip Thru Missouri - Other News Notes from Vicinity of Chapin.

Kile, Orville Merton-The Farm Bureau Movement. "Organized agriculture is the strongest and most hopeful single force in American political, economic and social life today. Its influence will soon be felt in every legislative hall, every business house, and every counting room in the land," says United States Senator William S. Kenyon of Iowa. The consumer is apparently torn between the hope that organized agriculture will mean more economical marketing and the fear that it may mean monopoly, with resulting high prices. The manufacturer and merchant are wondering whether the movement means for them bigger markets or restricted activity. The author of this book is trying to inform us as to the activities and purposes of the Farm Bureau, as well as to present to Farm Bureau members a constructive analysis of the strengths and weaknesses of the organization. A knowledge of this book will give the reader a better understanding of the background, origin, structure and purposes of the movement. The reader will be impressed with the movement's possibilities for good along the lines of economic and civic betterment and also with the dangers that beset the Farm Bureau movement. This book should be read by teachers of economic and agricultural subjects and by students as well and will be enjoyed by farmers and Farm Bureau members. Get it at the Public Library.

CHAPIN HIGH SCHOOL NOTES.

The high school library has been made a subdivision of the extension department of the state library. An elaborate consignment of books ranging from writings of the classic writers to modern writers is available to the high school students and the public.

Among the better known popular writers whose works are in the library are the following: O. Henry, Van Dyke, Harold Bell Wright, Galsworthy, Aldrich, Eggleston's "The Hoosier Schoolmaster," and others.

The library was secured by Miss Ina B. Shaul, instructor in English, who has charge of the books. The public is invited to withdraw any of the books any Friday afternoon between 3 and 4 o'clock.

Arrangements are being made for the opening number of the community lyceum course. The first number will be given Thursday evening, October 19.

The opening attraction is the Powers Snider company, a musical and entertaining duo of girls. This company provides an unusually attractive program of music and readings.

The season ticket sale has been the largest for many years. A few season tickets still remain and can be secured from high school students.

All attractions will be given in the grade school assembly beginning promptly at 8 p. m.

**MUSICAL COMEDY IN  
THREE ACTS COMING**

In this progressive era of superfluous theatricals the fact must not be overlooked that the cartoon play is a piece de resistance for the consideration and attention of particular folks in search of whole and diverting amusement. In this category comes the world-renowned and internationally famous "Bringing Up Father" comedies by Geo. McManus. No American artist has done more to immortalize a new popular idol than Mr. McManus who has drawn his unusual but true-to-life types, symbolizing a character that embodies all the essentials of real flesh and blood creations, besides being the most beloved "Father" that the present generation has ever seen or heard. "Father On His vacation" is the title of the new play based on these wonderfully amusing cartoons and will be the attraction at the Grand theater, Monday night.

## Instant Quaker Oats

Quaker Oats now come in two styles—regular and Instant. Both have that super-flavor—the flavor that won the world. Both are flaked from queen grains only—just the rich, plump, flavory oats.

But in Instant Quaker the oats are cut before flaking. They are rolled very thin and partly cooked. So the flakes are smaller and thinner—that is all. And those small thin flakes cook quickly.

Instant Quaker cooks in 3 to 5 minutes. It is the quickest-cooking oats in the world.

In those two ways Quaker Oats excel. Say which you want, regular or Instant. But, if you love flavor, insist on the Quaker brand.

veloped in the double shooting of  
the Rev. Edward Hall and Mrs.  
James Mills, wife of the church  
sexton, authorities announced to-  
night that they had constructed a  
framework on which they expect-  
ed the case to hinge. This frame-  
work they said consists of four  
questions to be put to Mrs. Hall  
and James Mills.

The first question is the num-  
ber of times which Mills met Mrs.  
Hall on the day before the discov-  
ery of the bodies of the rector and  
Mrs. Mills. The second question  
concerns the statement of William  
Phillips a night watchman that the  
women in the polo coat who en-  
tered the Hall early on the morn-  
ing after the shooting was unac-  
companied. Mrs. Hall, who has  
admitted she is the woman de-  
clared she was accompanied by  
her brother.

The third question is why Mrs.  
Hall failed to make any declar-  
ation of the large sum of money  
found in Hall's home, and the  
fourth is why neither she nor  
Mills made any statement of the  
close friendship between the re-  
ctor and Mrs. Mills.

The most important new dis-  
covery today was the finding of  
what detectives called the "love  
fence." This was a special chick-  
en and barbed wire fence about a  
shed in the rear of the church.  
Detectives said they were in-  
formed that on occasions neighbors  
had seen Hall and Mrs. Mills leave  
the church, separately, by a rear  
door and go to this shed. The  
fence, detectives said acted as a  
barrier to intruders.

## PLAN GOLF COURSE IN WHITE HALL VICINITY

Sites Under Consideration for Golf Course Include Gregory Tract and City Reservoir—City Council in Session—Other News Notes.

WHITE HALL, Oct. 6.—The movement to bring the organization of a golf course has received such impetus from Carrollton, Roodhouse and Hillview as to induce early action toward calling the forces together to perfect the organization and acquire ground for opening the course early next spring.

The site under consideration is the Gregory farm tract lying north of the chautauqua grounds, which Mr. Corsa has agreed to lease for the purpose for a period of ten years with a privilege of renewal. This will provide for a nine hole course. Another site under consideration is the city reservoir, which land belongs to Elliott Ross, and it is not known that Mr. Ross will entertain a proposition of this kind.

The city reservoir has been under consideration for the establishment of an amusement park that will provide for picnic and all kinds of gatherings throughout the season, with an occasional big day that will keep pleasure seekers coming constantly in quest of fishing and boating, it being necessary to undertake a large expenditure for this kind of an enterprise in order to provide an amphitheater and natatorium, with the provision for concessions pleasure devices. It is figured that the golf course alone can be handled for \$15,000, while the larger idea would involve an investment of six times that

amount. The Gregory farm site, however, already provides for auto parties as a stopping place for camping. One local financier has stated that he would consider the purchase of the reservoir grounds for the establishment of a pleasure resort.

### City Council Meets.

The regular October session of the city council was held Tuesday night, at which Engineer Caldwell submitted plans for the proposed municipal electric plant. The proposal will be further considered at an adjourned session next Monday night, when it is likely that an election will be called for the purpose of voting bonds for the erection of the plant. An advisory vote was carried by a large majority more than a year ago, and Mayor Roodhouse is determined to bring it to final settlement during his administration.

The session was taken up mainly by routine business. Charles Richert, dean of White Hall business men requested the council to give consideration to the opening of the old city well at the bank corner to meet the situation growing out of the dry period causing wells to go dry all over the city. A sample of this water will be sent to the state chemist for analysis, and if the report is favorable a pump will be installed. The water supply in the city reservoir is not giving concern, as that supply can stand three months of dry weather.

### News Notes.

C. G. Smith and bride departed Wednesday for their new home at Owatona, Minn., near Minneapolis, where they will locate on a farm. The couple were married by Rev. Marbach in State Street Presbyterian church, Jacksonville, Monday, returning to White Hall for a short sojourn with the bride's mother, Mrs. David Culbertson, she being one of the well known and highly esteemed young ladies of White Hall. The groom comes from Lorraine, Iowa.

Partial opening of the new hard road between White Hall and Roodhouse has been effective since 2 o'clock p. m., Wednesday, greatly reducing the detour between these two points. It is now possible to proceed north for half a mile from the north limits of the city across the Burlington tracks, and thence turn northwesterly at the lane at the Ames place to the west Roodhouse road, thence turn east into Roodhouse. This reduces the distance exactly one mile, according to the computation of Dispatcher G. A. Greene, who makes daily trips between White Hall and Roodhouse. He reports that the new route has been worked, and is in fine condition, excelling the routes of the two detours that have been in use since the hard road work began.

The death of William Love, a painter residing in the south part of the city, occurred at 10 o'clock this morning almost suddenly. He was about 60 years of age, and leaves a family. Details are not available at this hour.

### PROHIBITORS CAUSE GENERAL RIOT CALL

Baltimore, Md., Oct. 6.—Riot calls were sent to all eight Baltimore police stations tonight when a large crowd surrounded a saloon, which was readied by prohibition agents and threatened the lives of the agents.

The police were virtually helpless to quell the disturbance for several hours. The dry agents still are in the raided saloon, fearing to leave.

### FARMERS ADVISED TO HOLD POTATOES

Madison, Wis., Oct. 6.—Farmers are being advised to hold all but their best grades of potatoes. The department of markets reports that potato markets are flooded and in many instances unable to handle the supplies being sent from Wisconsin and other growing states.

George F. Haigh has returned home after a vacation of several weeks spent in Rock Island, Mo. line and East Moline.

## ILLINOIS COLLEGE SOCIETIES GATHER

Regular Meetings Held Friday Evening—Interesting Programs Carried Out.

Last night the literary societies of Illinois College held their regular meetings and programs containing numbers of unusual interest were given. Students entertained the members of the societies with their essays, orations, extemporaneous speeches readings and debates. Subjects of great importance, especially the orations and debates were handled with great skill. The Fordney-McCumber tariff and the rail question were well handled.

To add a little pep to the meetings, new members were taken in and talks from old members were heard. The decision on the Fordney-McCumber tariff bill, was awarded to the negatives. No decision was given on the question of U. S. Ownership of Railroads. The affirmative won the judges' decision on the question of French and English interference in the Near East.

The meeting of Phi Alpha began at 8 o'clock and the following program was given:

Essays—Miller, Hfner. Declaimers—Elroy, Cheney. Orator—Reid.

Two Weeks—Nickel.

Debate—Resolved, That the interference of England and France in the Near East is unwarranted.

Affirmative—D. Smith, Stevens.

Negative—Ivie, Gard.

The Sigma Pi met at 7:45 with the following program:

Declaimers—Fraser, Witaschek.

Readers—Struck, Foreman.

Essays—Mellon, Wilson.

Two Weeks—Smith, Hiatt.

Extemporizer's Subject—What the League of Nations has accomplished.

Debate—Resolved, That the Fordney-McCumber tariff is desirable.

Affirmative—Daigh, Brown.

Negative—Schumann, Martin.

The Gamma Nu met at 8 o'clock and was entertained with the following program:

Essay—Akins, Hopper.

Declamations—Williams, Anderson.

Oration—Spencer.

Select Reading—Buchanan.

Extemporizer's Subject—Comparative Strength of the Giants and Yankees for the World's Series.

Debate—Resolved, That the railroads of the United States should be owned and operated by the government.

Affirmative—Dale, Frey.

## Smooth

SMOOTHNESS of surface is necessary in all pavements. Smoothness makes for low cost of vehicle operation and for user's comfort. But some pavements possess a certain surface "slickness" (sometimes represented as smoothness) which causes them to be unsafe for traffic, even when dry, and doubly dangerous when wet.

## VITRIFIED Brick PAVEMENTS

on a substantial support, provide the utmost smoothness consistent with safe footing or traction for all kinds of traffic, comfort for the user and economy for the taxpayer. Brick pavements are as skid-proof as any pavement can be and still be smooth.

## SPENT HALF HER TIME IN BED

Farmer's Wife Tells How Lydia E. Pinkham's Vegetable Compound Made Her a Well Woman

Carter's Creek, Tenn. — "Three years ago I was almost an invalid. I spent half of my time in bed, being afflicted with a trouble which women of a certain age are apt to have. I took Lydia E. Pinkham's Vegetable Compound and used Lydia E. Pinkham's Sanative Wash. I am a well woman now and have been for two years. I can work as well as any one who is younger and as I am a farmer's wife I have plenty to do for I cultivate my own garden, raise many chickens and do my own housework. You may publish this letter as I am ready to do anything to help women as I have been so well and happy since my troubles are past." — Mrs. E. T. GALLOWAY, Carter's Creek, Tenn.

Most women find plenty to do. If they are upset with some female ailment and troubled with such symptoms as Mrs. Galloway had, the smallest duty seems a mountain. If you find it hard to keep up, if you are nervous and irritable, without ambition and out of sorts generally, give the Vegetable Compound a trial.

## Let the "Estate Oak" Solve Your Heating Problem

The ash box in this famous stove is a single cored casting. No joints means no leaks—and no leaks means perfect control over the fire. But the Estate Patented Jointless Ash Box is only one of the many reasons for the superiority of the Estate Oak. The Estate Patented Screw Draft Registers which work with all the precision of the valve in a steam radiator, are well worthy of mention; the Estate Double Strength Single Fire-Pot, which never wears through, ought to be considered; the Estate Anti-Buckling Ring is another important improvement; and all of these features combine to produce such perfect fire control that we can guarantee every Estate Oak to keep fire fifty hours on one charge of any kind of soft coal.

## Scott Beat Yanks, Pitches Self Into Hall of Fame

(Continued from Page One.)

a man who is resting all his hopes on a broken record ordered him to replace McQuillan. It was almost unprecedented for a manager to change his choice in so important a matter at such a time.

Everyone knew that Walter Hoyt, the "boy wonder," who won two out of three games from the Giants in the 1921 series striking out 18 men, allowing only 18 hits and yielding only two runs, both unearned, was to pitch for the Yankees. Opp fan remarked that McGraw was virtually conceding the game, believing Hoyt uneatable and had decided not to throw away a man who might win tomorrow.

Jack Scott's record is in the books now. It says there that the castoff's pitching was so marvelous that the Giant outfielders made only six putouts—that the Yanks were so thoroughly subdued that 18 out of their 24 outs were of the easy infield variety. Only four hits were made by the Yankees with their touted "murderers row" and only six times did they get a man on first.

Jack Scott combine his head and his aging right arm today and he followed orders. Earl Smith, the catcher said afterward that every time he called for a high pitch, a high one came. Not once, he said, did Scott fail. He used only a curve but he had such remarkable control that always it went where Smith knows knowledge of the Yankee batters and discerning judgment cannot be overlauded, ordered.

McGraw was visible in his praise of Scott and Miller Huggins, the beaten and crestfallen mentor of the Yanks, was not visible.

The Scott's marvelous pitching stood out today—as only the victory of the "under dog can," two other indictments furnished material for the crowd, a better tempered and more appreciative gathering than yesterday.

### Ruth and Groh Near Blues

Babe Ruth from whom so much is expected and so little comes, almost got into the headlines thru a tilt when Heine Groh, the Giants' third baseman. In a play in the fourth inning Ruth tried to go from first to third when Frisch booted Meusel's hit. Frisch whipped the ball to third and Heine was waiting for Ruth. Caught under full headway Ruth one ball bus, walked him with three wide ones. Groh hit the first ball pitched to right field on a hit and run play, and Bancroft easily reached third, from where he scored on Frisch's line single to right. Ward ended the tally by tossing out Irish Meusel.

### Hoyt Never a Puzzle

Hoyt never was a puzzle. With the top end of the Giant batting order again leading the attack, the youthful Yankee twirler was hit hard thruout the seven innings he worked. The Giants collected two hits off his delivery in each of the five innings. The fifth was the only hitless inning for the winners. Sam Jones pitched the eighth after Frank Baker had battled for Hoyt. He retired the side after Young had singled for his third hit and Cunningham walked.

The Yankees threatened only once, in the seventh, but it was a golden opportunity they missed. With Pipp out, Bob Meusel bounded an infield hit over Scott's head and Schang walloped the first ball down the right field foul line for a double, Meusel holding third. It was the game's crisis for Scott. The Giant infield parleyed with the pitcher and Coach Huggins Jennings came from the dugout with instructions.

The outlook was even more dubious with Elmer Smith, a dangerous hitter batting in place of Ward. But with the count three and one, Smith let a second strike shoot by and then missed the third one. Everett Scott ended Yankee hopes by grounding out to Bancroft.

The Yankees got only two hits off Scott in the other eight innings, one in the second by Pipp who also stole second and another in the sixth by Hoyt. But they were the first to face Scott who quickly retired the next three batters each time.

Witt who walked in the third and Ruth, who was hit by a pitched ball in the fourth, were the only other Yankees to reach base. Whitney napping off first base was caught by Earl Smith's quick toss to Kelly and the first "bone" play of the series was automatically recorded. The Babe was cut down at third when he crashed with Groh.

In other departments the Giants excelled in fielding, altho there was little spectacular stuff. Groh's running catch off Scott's foul near the Yankee dugout in the fifth and Bancroft's spear of Pipp's hot grounder over second base in the ninth were outstanding.

The Giants with two victories and no defeats now hold a formidable advantage over their rivals. Their supremacy in pitching, generalship and all around defensive work, while especially clear cut today has been outstanding in the entire series.

Mr. and Mrs. J. V. Fox, accompanied by Mrs. Eva Fox of Gibson City, Ill., motored up from Chapin yesterday and were visiting friends.

## ILLINOIS COLLEGE MEETS CARTHAGE

Coach Harmon's Team Takes First Appearance of 1922 Season on Illinois Field This Afternoon; Game Starts at 3 O'clock.

The Illinois College football season will open this afternoon at 3 o'clock when the Illinois players line up against the Carthage College team.

For three weeks the Illinois players have been at the game hammer and tongs, working to get into condition. The hot weather and dusty field have been severe handicaps but they have likely hampered the Carthage players as much as the local men.

The Carthage players got away to a flying start this fall under the very capable coaching of Lewis Omer, former athletic director at Northwestern University. Most of the players reported a week before school opened and practice sessions were held twice daily, morning and evening, with lectures at night. This sort of training has conditioned the Carthage boys far in advance of the Illinois players.

Then too, the Carthage men have been tested out under fire this season. As the team has ten veterans of last season on it, however, they were probably not in need of a proving out. Nevertheless, they romped over the Quincy college team a week ago to the tune of 54 to 6 and displayed a powerful offense and a strong defense.

Four of the Carthage linemen are playing their fourth year. Others are playing their third and second year and only one man, Cawthon, last season on Pittsfield high school, is playing his first year. So it will be seen that Illinois will have her hands full this afternoon.

The College band will make its initial appearance of the school year and endeavor to add to the entertainment of the afternoon.

The field is heavy as a result of yesterday's rain but a few hours of sunshine today will make it fast and fit for all around play.

## ROUTT HIGH PLAYS ROODHOUSE HIGH

Local School Plays First Game in History Today—Men Are In Good Shape for the Play.

Route High school's football team will play its first game at Roodhouse this afternoon when it meets the strong high school team of that city.

Route High just started football this fall as heretofore they have had only basketball. Coach Coonan has been giving the squad strenuous workouts and is well satisfied with the conditions of his men and feels they will give a good account of themselves.

Roodhouse has had one of the strongest high school teams in this section of the state the past few seasons. This year the team looks to fully as good as the team of last year. Last Saturday it defeated Pittsfield high by a score of 16 to 0.

The probable lineup of the Route team follows: Harms, 1c; Fitzgerald, 1c; Seby, 1g; Cleary, c; Early, rg; Doyle, rt; Johnson, re; Murphy qb; Mallen, Clancy, hb; Gebert, fb.

## MANAGERS TALK ABOUT SERIES

NEW YORK, Oct. 6.—The perfect control of John Scott was the outstanding feature of the third game of the world series according to McGraw and Huggins, managers of the Giants and Yankees.

McGraw, considered the best judge of pitching ability in baseball said he knew the "deacon" had plenty of stuff, but that his control was a thing to marvel at. "I thought that our team should have counted more runs on their hits," said McGraw, "but with Scott's pitching that didn't matter. We won and the credit is all Scott's."

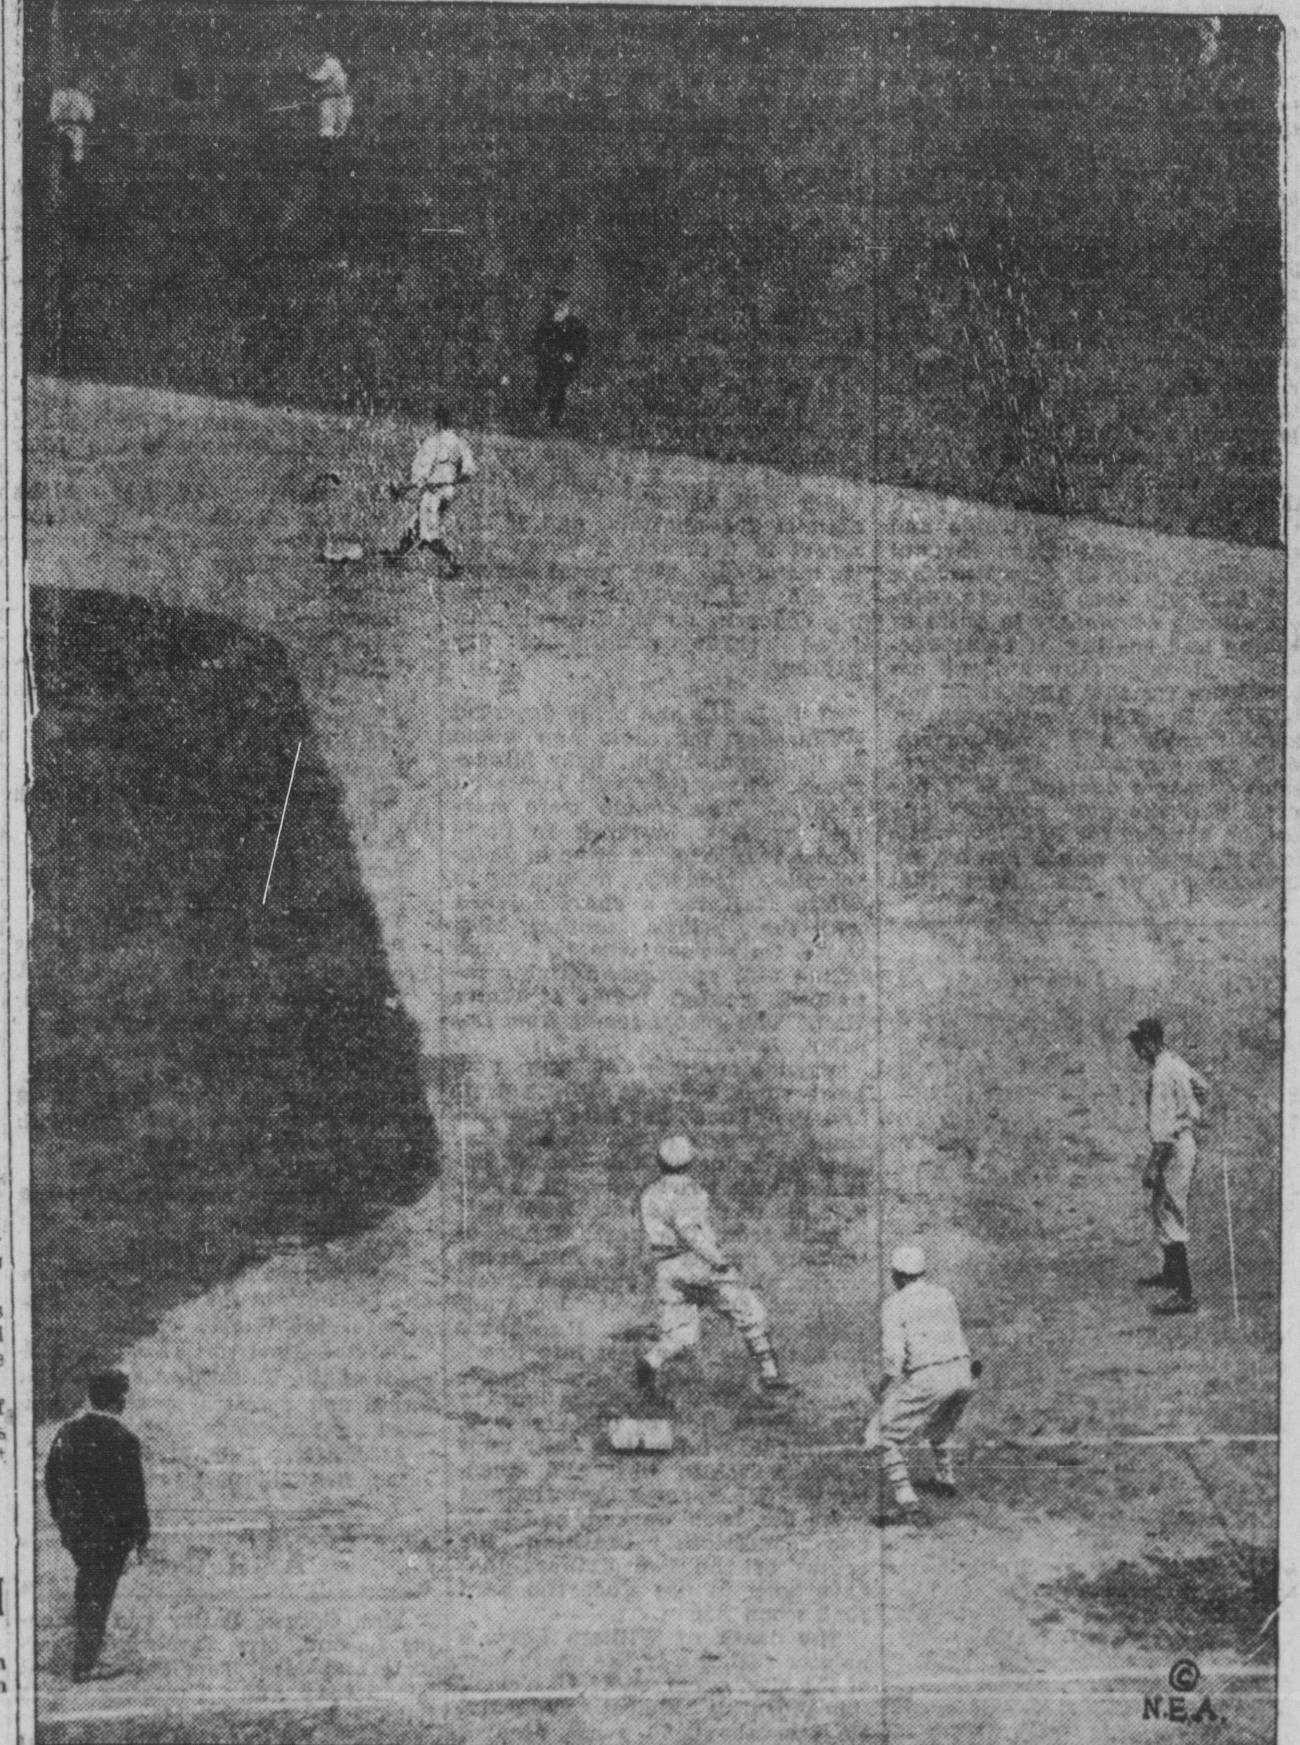

Huggins the Yankee leader also praised the Giant pitcher's work. "We thought," he said, "that Scott would be easy for us but his control was too good. I think that error credited to Ward lost the game for us. It was a bad ball and Ward was hardly to blame for kicking it but that was one of the 'breaks.'"

Huggins said he would start Mays in tomorrow's game and McGraw who can afford to take a chance, is to have McQuillan or Ryan ready.

**SHOWER FOR ALEXANDER BRIDE TO BE TOMORROW**  
Misses Louise and Agnes Freitag of Island Grove will give a miscellaneous shower tomorrow afternoon for their cousin, Miss Elizabeth Ridder of Alexander, whose marriage is an event of the very near future. A large number of the friends of the bride-to-be have been invited and a very pleasant time is anticipated.

**A CORRECTION.**  
An item in a recent issue with reference to a meeting of the Alexander Altar society stated that the ladies had completed their pledge of \$50 toward Our Savior's hospital. This figure was a typographical error, as the amount raised was \$250.

## Heine Groh Gets First Hit of Series

The first hit! In the first inning, with the count two to two, Heine Groh, Giants' third baseman, got the first hit of the series. It was a low single to left. Picture shows Groh rounding first base. In the far background is Bob Meusel, Yankee left fielder, ready to make the throw that gave Heine a scramble to get back after he had overrun the bag.

## ON WESTERN GRIDIRONS

**ILLINOIS**  
Champaign, Ill. Oct. 6.—Coach Zuppke of the University of Illinois football team tightened the gates today as he gave out some new plays previous to the varsity freshman battle tomorrow. The injury to Captain Wilson has him still in the hospital.

**MICHIGAN**  
Ann Arbor, Mich., Oct. 6.—When today's drill ended Michigan pre-season training period the griders were in perfect condition for the opening tilt tomorrow with Case, Coach Yost declared tonight. Interest here centers about how large the score will be. Yost accompanied by Captain Goebel and Uteritz, left for Columbus tonight to witness the Ohio State-Otterbein game tomorrow. This is the first time in Yost's career that he has kept men out of a game to witness another fray.

**WISCONSIN**  
Madison, Wis., Oct. 6.—Wisconsin ran thru a short spirited signal drill this afternoon and called it a day. The team is ready for its contest Saturday against Carleton College. The Minnesota college team does look formidable to the Badgers who may confine their attack to straight line and end run plays.

**MINNESOTA**  
Minneapolis, Oct. 6.—Tomorrow for the first time in many years University of Minnesota football team will face an opponent—North Dakota—without relying upon the famous and intricate "Minnesota Shift" as the main offensive play. Coach Spaulding's successor to Dr. H. L. Williams, former Minnesota coach who originated the shift has concentrated his efforts toward developing precise execution of the more simple plays.

**IOWA**  
Iowa City, Iowa, Oct. 6.—Chester meade, regular guard on the University of Iowa football team will not be in the lineup tomorrow when the western conference champions open their 1922 campaign against Knox College. He is suffering from a bruised hand, Leo Krise one of the biggest men on the Iowa squad will take his place.  
Coach Jones put the varsity thru a long drill this afternoon with Aubrey Devine's freshmen

## TAGGART'S HORSE, THE SENATOR, WINS

Captures May Day Stake Worth \$12,250 at Lexington—Margaret Dillon Wins Board of Commerce Stake.

Lexington, K., Oct. 6.—The May Day stake worth \$12,250 said to be the most valuable race for two year old trotters ever contested was won in sensational style today by Thomas D. Taggart's The Senator setting a new world's record for a 2 year old record for a third heat by two year olds. The Board of Commerce event for free for all pacers also was won in sensational time, the two miles in 1:59 and 1:59 respectively the fastest two heats by a pacing mare.

The May Day proved almost as big upset as the Transylvania races Thursday, as the futurity winner Jane Revere, was expected to win easily. She captured the first heat in 2:07, but The Senator was best in the next two, winning in 2:06 and 2:07. The Senator was driven by Lon McDonald.

The Board of Commerce stake proved interesting as it brought together one of the fastest fields of horses that ever raced. Margaret Dillon was a handy winner.

The 2:08 pace went to the favorite Peter Daphne after Wrack driven by McMahon had won the opening heat in 2:03.

After the first heat the son of Peter Donna was clearly best. Let Fly from the Good Time Stable won the second division of the 2:13 trot after the first had gone to Todd Hart.

**WEATHER WILL NOT INTERFERE WITH GAME**  
NEW YORK, Oct. 6.—While the United States weather bureau tonight forecast rain for tomorrow night its report declared Saturday's weather would not interfere with the scheduled world's series game.

"Cloudy and cooler Saturday," the report said, "followed by showers Saturday night and Sunday."

## BIG TEN TEAMS WILL START SEASON TODAY

All of Them But Illinois Play This Afternoon — Georgia Meets Chicago.

Chicago, Oct. 6.—Football will march into the spotlights in the mid-west tomorrow afternoon when all the teams in the western conference with the exception of Illinois, swing into action for the first time this season. None of the games will affect the big ten championship campaign but three or four teams at least probably will be extended to the limit to win.

Perhaps the most important contest on the schedule will be that between Georgia and Chicago. The Georgians, with two victoires to their credit, threaten to spring an upset. The Georgia backfield players are shifty and fast and the forward well is regarded as one of the strongest in the south.

The strength of the Chicago eleven is problematical, as tomorrow's game will be the first of the season.

Minnesota is prepared to meet formidable opposition in its clash with North Dakota at Minneapolis while Wisconsin will face the strong Carleton team at Madison. Iowa, which is pointing for the game with Yale a week later will meet Knox at Iowa City and Michigan will take on Case at Ann Arbor. Ohio State is expected to score an easy triumph over Wesleyan at Columbus. Indiana will take the field against DePaul at Bloomington, and Purdue will face James Millikin at Lafayette.

Northwestern will meet Beloit tomorrow and Coach Thistlethwaite, the new mentor hopes to wipe out last year's defeat.

Outside the conference Notre Dame will come to grips with St. Louis University at Notre Dame and Nebraska will go into action against South Dakota at Lincoln.

Dr. J. M. Swope of Arenzville was in the city yesterday to call on his wife, who is a patient at Passavant hospital.

### ELKS WILL OPEN DANCING SEASON

Next Thursday evening, October 1, will be the date of the first of a series of dances to be held at the Elks' home during the winter season. The Elks are planning to have a dance every two weeks during the winter months and Thursday night has been set as the regular date for the dance. Dunlap's orchestra and Brown's Serenaders have been engaged to play alternately at the dances and these semi-monthly dances promise to be one of the main features of Jacksonville's social season this winter.

The dances will be held on Thursday evenings except when they are changed to celebrate a holiday. The second dance of the season will be a big Halloween affair and will be held Halloween night, October 31. The dance will be a masquerade and a special committee to take charge of the dance will be appointed next Wednesday evening. Everyone will remember the gay affair which the Elks masquerade ball proved to be last year and this year's ball on the eve of All Saint's Day will be even gayer and more popular than the last one. A Christmas dance and a New Year's ball are among the other special functions planned and a number of novelty affairs will also be given during the season. The dances will be in charge of the Elks social committee.

The following calendar of regular dances and special affairs has been announced by Jacksonville lodge, B. P. O. E. No. 682.

Thursday, October 12—Regular dance.  
Tuesday, October 31—Halloween masquerade.  
Thursday, November 16—Regular dance.  
Thursday, November 30—Regular dance.  
Thursday, December 14—Regular dance.  
Monday, December 25—Christmas ball.

### WALTER LONERGAN IS LOWEST BIDDER

Local Contractor Presents Lowest Bids for City and State Work On Morton Avenue—Contract Not Yet Awarded.

Bids for the construction of the two sections of hard roads to be built to connect up with the Morton road and the city pavement were opened yesterday. Bids were on file at Jacksonville and also at Springfield. In addition to the sections of hard road, a concrete bridge is also to be built. The work brought bids from three contractors, two of whom are Jacksonville men. W. D. Lonergan was the lowest bidder and his figures on the section to be built by the city were \$5,666, and on the State section \$2,078. Mr. Lonergan's bid on the construction of the bridge was \$6,171.25.

Simon Fernandes and Son were also local men who bid on the work. Fernandes and Son's bid on the section to be built by the city was \$5,841.44.

The other company bidding for the work was the Illinois State Construction company of Chicago. This company bid on the city's section \$6,821 and for the state section, including the bridge \$9,996.

As has been stated these bids were on file at the office of Superintendent of Highways at Springfield. While W. D. Lonergan's bid was lower than competitors, the state has not yet announced the letting of its contracts and it is probable that the city will withhold doing so until definite announcement is made by the State Division of Highways.

### ROTARY CLUB MEMBERS TRAVEL TO MEREDOSIA

Were Guests of D. A. H. Dolear and V. R. Riley Friday at Meredosia Bay Cottage.

Between sixty and seventy Rotarians made the trip to Meredosia Friday morning and were guests at dinner of Dr. A. H. Dolear and V. R. Riley at their cottage there. The start was delayed somewhat on account of the rain, and it was eleven o'clock before the club men finally were on their way. However, the trip was made in good order, only one or two cars going into the ditch and they were soon able to resume their journey.

Dr. Dolear and Mr. Riley had made most generous preparations for the dinner and the feast was one which met the hearty approval of every one of the guests. Good things to eat in great variety and abundance had been provided, and the guests did full justice to the spread.

A program of outdoor sports had been arranged for the afternoon, but the rain interfered with this to some extent. However, a number of the men armed themselves with fishing tackle and spent the afternoon at this fascinating pastime. A barrel of clay pigeons had been provided by the hosts and thus amusement was furnished for some of the club members who are crack shots.

It was late in the afternoon when the homeward journey was begun and all the Rotarians and their guests were unanimous in the opinion that the occasion could not have been made more enjoyable.

### CLIO CIRCLE MET AT LITERBERRY YESTERDAY

The regular meeting of the Clio Circle of Literary Christian church was held Friday afternoon at the home of Mrs. Harry Martin, with Miss Georgia Litter as assistant hostess. The Martin home is four miles from Litterberry and those who attended the meeting had some difficulty in reaching their destination, but they were well repaid for their efforts.

Some changes were made in the program of the afternoon, as some of the members were unable to be present. There was a brief business session, presided over by Miss May Myers. At this time plans were made for a burgoo supper to be given next Thursday evening, October 12, at the Christian church. Burgoo soup, hamburger sandwiches, coffee and ice cream and cake will be served. After the business session came a pleasant social hour when the hostesses served attractive refreshments.

### LIGHTNING STRIKES BARN NEAR FRANKLIN

A large cattle barn on the farm of J. B. Burch, one mile south of Franklin was totally destroyed by fire Friday morning. The barn was struck by lightning and burned to the ground, together with eight or ten tons of hay which had been stored in it. There was also some farm implements in the barn, but it was possible to remove all these with the exception of one corn planter. The barn was about 100 by 56 feet in general dimensions and was valued at about \$900. Mr. Burch carried some insurance but not enough to cover the loss. W. L. Clayton is the tenant on the farm.

Harvey Dowling of the east part of the county was listed among the callers in the city yesterday.

## Social Events

### Gives Bridge at Peacock

The members of the Monday Bridge Club entertained at a luncheon party yesterday in honor of Mrs. William Huffman of Los Angeles, Calif., who formerly lived in Jacksonville. The affair was given in the blue room at the Peacock Inn. Three tables of guests were present and at one o'clock a delicious luncheon menu was served. Following the luncheon the afternoon hours were pleasantly spent in playing bridge. Mrs. Huffman is visiting in the city at the home of her mother, Mrs. A. J. Wood of West College avenue.

### Bridge For Miss Wadsworth

Miss Mary Wadsworth was the guest of honor at a delightful bridge party given yesterday afternoon by Mrs. Frank Heintz at her home on South Diamond street. About seven tables of cards were made up and the afternoon hours spent in playing. The Heintz home had been attractively arranged for the occasion with lovely fall flowers and in every way the function was a pleasant one. At the close of the playing a dainty luncheon was served.

### Former I. W. C. Student Weds

Friends in Jacksonville have received announcement of the marriage of Miss Hazel Waggoner of Carrollton, Illinois to Dr. Arthur G. Hildreth. The wedding took place in Carrollton on Wednesday, October 4. The bride is the daughter of Dr. and Mrs. W. F. Waggoner of Carrollton and was a student at the college in 1911-1912. Dr. and Mrs. Hildreth will make their home in Macon, Missouri.

### Will Entertain I. W. C. Freshies

Last year's members of the Alpha Pi Delta society of Illinois Woman's College are planning a party to be given Monday afternoon, October 9th in honor of the new members of the society. The society is made up of all the freshmen in the school and those who composed the society membership last year are now sophomores. Miss Martha Logan as president of last year's group will be in charge of the arrangements for the affair. The function will be held in the society hall in the music room and will be an afternoon tea. An informal program will be given and refreshments served.

### Newlyweds Are Guests at Dinner

Mr. and Mrs. Thomas R. Martin, who were married Tuesday afternoon in Springfield, were guests of honor at a dinner party Friday evening at Mr. Martin's home, 902 Hackett avenue. The occasion was for the recent marriage of Mr. and Mrs. Martin. Mrs. Martin was before her marriage, Mrs. Mary T. Wade of East Court street.

Following the marriage in Springfield Mr. and Mrs. Martin took a several days motor trip north, taking in Chicago and other places. The contracting parties are well known Jacksonville people. Mr. Martin was for sixteen years connected with the firm of Brady Bros., and has for the past summer been with the Lonergan Construction company. Mrs. Stowell, a daughter of Mrs. Martin, served the dinner at the Martin home last evening.

### Friday Social Circle Elects Its Officers

The Friday Social Circle met Friday afternoon with Mrs. John Clary. The election of officers was one of the duties of the Circle at this meeting and the selections were as follows:

President—Mrs. Thomas Walsh. Vice president—Mrs. George B. Sloan.

Secretary—Mrs. W. H. Wiseman. Treasurer—Miss Elizabeth Stevenson.

Flower committee—Miss Eve Lazenby and Mrs. Charles Keefe. Following the business session a social hour was indulged in during which the hostess served delightful refreshments. The circle meets October 20 with Mrs. Henry Freish on College avenue.

### A. A. U. W. Branch To Meet

The Jacksonville Branch of the American Association of University Women will meet this afternoon at the Pilgrim Memorial of the Congregational church. This is the first meeting of the fall and the meetings will be held the first Saturday in the month all during the winter season.

Miss Mary Wadsworth will make an informal talk before the association today and will speak of her European trip, telling of her work at the social service center at Chateau Thierry in France, and of her subsequent trip thru Switzerland, Germany, Belgium, Holland, England and Scotland. Following Miss Wadsworth's address the club will adjourn for a social hour and afternoon tea will be served. The social hour will be an important part of the afternoon and it is hoped that a large number of the members will be present.

The Jacksonville branch now numbers about one hundred members belonging to the national organization. In the near future it is planned to enlarge the membership by adding associate members to the organization. Mrs. J. C. Grout, of Winchester is the president of the organization and Mrs.

### Lee Doane of Jacksonville is the secretary.

The hostesses for the social hour will be the Wellesley and Smith College graduates. These include Mrs. J. Weir Elliott, Mrs. A. B. Applebee, Dr. Grace Dewey and Miss Louise Frost of Winchester, of the Wellesley group and Mrs. L. S. Doane, Miss Elizabeth Russell, and Miss Edith Wemple of Waverly as the Smith college group.

### Entertain Relatives.

Mr. and Mrs. B. F. Lane of this city have for the past week been entertaining at their home, Mrs. E. A. Lane and daughters, Misses Eva and Naomi Lane of the Riggs neighborhood and another daughter, Mrs. Anna Jamill of San Antonio, Texas.

### Ladies Aid of Northminster Met.

The Ladies Aid Society of Northminster church held their regular monthly meeting Thursday afternoon at the church and set the date of their annual supper for October 26.

### Professional and Business Women's Club Met.

At a meeting of the Professional and Business Women's club held in Pilgrim Memorial of Congregational church Friday evening officers for the ensuing year were elected. About twenty-five members were present and after a business session a social hour was enjoyed and refreshments were served.

The new officers are: President—Florence Madden. Vice President—Maude Ryan.

Secretary—Marie Finney. Treasurer—Lucy Catlin.

### Lynnville School Held Box Social

The box social held at the Lynnville district school last evening was a big success. About 80 persons were present and every box offered was sold. Charles M. Strawn auctioneered the boxes, tendering his services without fee.

Lynnville school has an organ and the pupils of the school, together with Mr. E. Harland Moses and Miss Sally McKinney, teachers at the school, arranged the social for the purpose of securing funds toward providing for the purchase of a piano. About \$40 was raised by the sale of boxes.

### SOLDIERS WANT BROOM AND MOP STICKS

Anyone who has any discarded broom and mop sticks can give the disabled soldiers at the federal training camp at the Jacksonville State hospital a big lift if they will bring them to the store of Louis L. Horen, west side of the square. H. T. Sanderlin, instructor in the wood working department, states that the soldier boys will greatly appreciate the articles. They use them in construction of wicker work and great skill is shown by them in this work.

### ILLINOIS HAS 109 HI Y CLUBS

There are 109 Hi Y clubs in the state of Illinois. Jacksonville Hi Y club has a membership enrollment of 65.

The Hi Y boys of Jacksonville club last year pledged a days wage to be donated to the expense of Pat Barnhart, who is working in the interest of the boys of Korea. State Secretary Boyd L. Walker has written the local club that he received the sum of \$34.80 as the amount of this pledge.

The Hi Y is composed of boys of the high schools and their work is directed along lines of social Christian endeavor.

### LITERBERRY AID TO MEET HERE TODAY

The Ladies' Aid Society of the Litterberry Christian church will meet today with Mrs. Albert Crum on Webster street in this city. Once each year the members of this society meet with Mrs. Crum in this city, and the meeting was set for Saturday afternoon to enable more of the ladies to be present. Mrs. Frank Ogil is president of the society.

### GAMMA DELTA SOCIETY HELD REGULAR MEETING

The Gamma Delta literary society held its regular meeting Friday afternoon at the home of Miss Gladys Knapp. After a brief business session a social hour of music and dancing was engaged in, and the latter part of the afternoon delicious refreshments were served.

### RAIN STOPS PLANES FROM MAKING TRIP

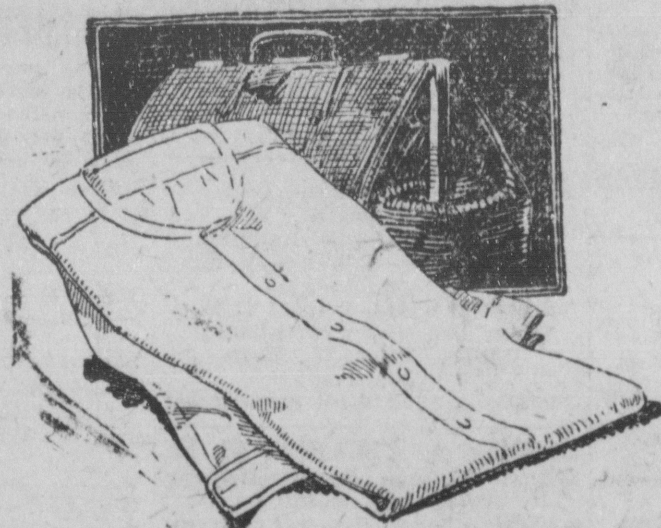

Lieutenant Harold McGinnis received word yesterday afternoon that the formation of airplanes scheduled to arrive here yesterday from Chanute field had been turned back by the rain. The formation which consists of three planes may come today if not probably will be here the first of the week.

### RETURN FROM AUTOMOBILE TRIP

Mr. and Mrs. R. E. Nickel of Concord and Mrs. Nichel's mother Mrs. George Dietrick from near Concord, and Miss Abbie Hayden of Park street, have returned from a several days' auto trip to Peoria. They spent three days there attending the District Fair and visiting.

Mrs. Clark Stevenson was a Friday shopper in the city from Orleans.

Judge M. T. Layman has gone to Chicago for a week on business.

### OBITUARY

Dorothy Marie Peet was born in Waverly, Illinois, Nov. 28, 1904 and passed away Sept. 29, 1922, at her home at 1205 Tendick street in Jacksonville. She was the youngest daughter of Jesse and Carrie Peet residing near Prentice, Illinois. She was united in marriage to Leo O. Tendick August 28, 1922, a little over a month ago.

She leaves to mourn her loss, her husband, father and mother, twin brother Darold Everett Peet, one sister, Mrs. Bortha Tranbarger, aunts and uncles, two aged grandmothers, besides a host of friends. Dorothy was always such a happy girl, always with a smile and will be missed by all who knew her.

Funeral services were conducted from Gillham funeral home at 2:30 p. m. Sunday, Rev. Mr. Pontius officiating. Many sorrowing friends attending. The music was furnished by Mrs. Ellis. She sweetly sang, "Jesus Savior Pilot Me," and "Beautifol Isle of Somewhere." The beautiful floral offerings were in care of Florence McGlothlin, Barbara Cooper and Mrs. Will Arenz. The pallbearers were Lewis Tendick, Russell Waterfield, Clarence Templin, Merrill Cruzan, Ralph Cruzan and Kirk Cruzan. The burial was in Diamond Grove cemetery.
